I shared with Jamey on signal too… want to add him/them to this thread?

Thank you sage. It's still downloading for me. If ok, I'll share it on the text thread that everyone is on so they can share collective feedback. It's in the middle of the night for them right now so we might not have feedback till the am. Thank you for recording!

Thx so much. The globes are in an hour so I think we don't post tonight regardless. Will give the team time to review as well.

+[redacted] Sage Steele
Yes. Tomorrow is what we had discussed so it didn't get lost in the Globes/weekend stuff, etc.
